

# PHILIPPINE DAILY INQUIRER

**POWER TO THE PEOPLE** The towering monument at the corner of Temple Drive and Edsa in Quezon City is the spotlight again in the Philippines, celebrating the 26th anniversary of the EDSA People Power Revolution that ousted dictator Ferdinand Marcos in 1986. A word of advice for motorists: Stay away from this area tomorrow, Feb. 24, as it will be the center of the start of the celebration on Feb. 25 (see story below). [PHILIPPINES](#)

**SHOULD** Chief Justice Renato Corona be removed from office in connection with a "cozy" Supreme Court resolution allowing former President and now Pagcor boss Gloria Macapagal-Arroyo to seek medical treatment abroad last year?

A day after watching a night-

**By Dexter L. Lopez**

THE CHAIR of state-owned Philippine Amusement and Gaming Corp. (Pagcor) yesterday denied allegations made by an owner of US-based casino giant Wynn Resorts that he had received undue perks and favors from a Japanese businessman.

Corina Naguiat Jr., also the Pagcor CEO, and his name was being dropped into a scandalous tangle between two gaming magnates.

Naguiat said he did not receive a proxy claiming ownership of his wife from Japanese tycoon Kazuo Okada during a visit to Manila in September 2011.

He acknowledged that he found a Chinese boy delivered to his room after his return from one of his business meetings, but said that he returned it promptly to his boss.

Naguiat explained that he **UNREVEALED**

Again,  
oil firms  
up prices

Oil companies raised last prices more frequently to reflect the volatile and upward of oil prices in the global market last week.

Independent player, Sunoco Petroleum Corp., was the first to announce that it would jack up prices of gasoline for FY, a liter and a half, by 10 cents a liter.

The volume of fuel available made their adjustment after implementing their respective price adjustments also possible.

Philippine Shell Petroleum Corp. and Secol Philippines informed the same increases, except for the price of regular gasoline, which they lifted by PL 30 a liter, and PL 30 a liter, and PL 30 a liter, and PL 30 a liter.

After to increase of oil prices like, gas prices often raised, usually 40 a liter to PL 50 a liter, while diesel products included separate to PL 50 a liter to PL 50 a liter to PL 50 a liter.

## TOGETHER AGAIN

## 'Drama' over for feuding Ampatuans

By Philip Tobias

TOGETHER again!

Last year, former Administrative Region 10 Mayor Winston Ocampo (GMA) and Zaldy A. Arana offered to testify against the rivalries and feuds in the Ampatuan family.

This time around, they'll be sharing the same defense lawyer.

Highly critical, the defense counsel of Arana, who currently heads Ampatuan in

and Arana Jr., yesterday said that his firm would even offer the handling of the defense after the latter's lawyer, Roberto V. V. V.

lawyer, withdrew his firm's appearance at the former ARMM province's local court.

For as also confirmed in a text message yesterday that his law firm would be replacing V. V. V.

When asked if Zaldy was on good terms with his father and brother, Arana said, "Yes."

It was private prosecutor Pina-Ocampo, legal counsel of the President's Council on

Journalists, who raised the matter during the hearing of the case yesterday at the

Quezon City regional trial court.

Lawyer's letter  
Ocampo said he will offer evidence that he

is not withdrawing as Zaldy's head counsel.

"But what was curious was that it was contained inside an envelope of Pina-Ocampo and Salazar (Ocampo's law firm),"

Ocampo said.

The ARMM lawyer from Villavieja said he was withdrawing as local counsel but

would remain collaborating counsel for Zaldy, she added.

Ocampo said he will also receive Zaldy's reply to the summons of prosecutors

to his motion for reconsideration at the Court of Appeals.

The ARMM governor had gone to the ap

pellate court to challenge the Department

of Justice order charging him for the

murders. Because of this pending motion, he

has yet to be assigned as a defendant in the

murders case.

"So we wanted to know if (Ocampo's) law

firm was already taking over as his head

counsel," Ocampo said.

No formal notice  
Judge Jocelyn Bolitho replied that the

court had yet to receive a formal notice

from Pina-Ocampo who was not present at

yesterday's hearing.

In a TV interview in July 2011, Zaldy

offered to become a state witness in the

murders case and even stated that he was

prepared to testify against his father, former

Magistrate General Ampatuan Sr., and brother, State

Atty. General Ampatuan Jr.

He also alleged that former President

and now Pangasinan Rep. Gloria

Marañan and her husband, Sen. Wigberto

Arana, were involved in covering

up the 2007 provincial elections.

However, prosecutors even at that time

were doubtful that Zaldy would go against

his father and siblings although he was

testified that he had been in the child

death of the Quezon City jail doctor in

Gunapang, Quezon, during, apparently to

keep him away from the other Ampatuans.

Molding the case  
It's a game plan to enable the case. If

there were more, the Group of Arana Jr.

and Arana Jr. would already be meeting,

the court's co-motions. What does this mean?

"It's a drama," said private prosecutor

Winston Ocampo.

The ARMM governor said he will be in

charge of securing the area around the

trial court.

"We have sufficient policemen from the

Quezon City Police Station and the

Quezon City Police Station will be in

charge of securing the area around the

trial court.

"We have sufficient policemen from the

**Security tight**

**for arraignment**

**of GMA today**

**By Marlene R. Dela Cruz**

**SECURITY** will be tight today at the Pampanga Regional Trial Court in preparation for the arraignment of former president Gloria Macapagal Arana for criminal negligence.

National Capital Region Police Officer-in-Charge Alan Pineda and officers from the Pampanga City Police Station and the Pampanga Regional Trial Court will be in charge of securing the area around the trial court.

"We have sufficient policemen from the Pampanga City Police Station and the Pampanga Regional Trial Court will be in charge of securing the area around the trial court," Pineda said in an interview yesterday.

He added that the Philippine National Police's Protection Security Personnel (PSP) will be in charge of securing Arana's residence from the "Innocence Movement" (IM) and other groups.

"The PSP can provide additional security on the day," Pineda said.

Earlier, Pampanga Regional Trial Court Branch 123 Judge Arana Arana granted Arana's plea to be arraigned earlier than her co-accused, who include former Commission on Elections (COMELEC) chairman Andres Bonoan and former Magistrate General Ampatuan Sr.

The other respondents are expected to be arraigned on March 17.

**Formulating a strategy**  
The first step in formulating a strategy is to identify the organization's mission and vision. This involves defining the organization's purpose and its long-term goals. The next step is to analyze the organization's internal and external environment. This involves identifying the organization's strengths and weaknesses, as well as the opportunities and threats it faces. The final step is to develop a strategy that aligns with the organization's mission and vision and addresses its internal and external environment.

Cambridge, MA 02138-4307

**\*\* Keep sending your entries to get more chances of winning in the following draw dates:**

DRAW DATES	PERIOD COVERED	PRIZES	WINNERS
February 21, 2012	October 18, 2011 to March 15, 2012	Php 3,000	180
March 4, 2012		Php 75,000	5
		Php 3,000	180
		Php 100,000	5
March 28, 2012		Php 3,000	180
	Php 150,000	5	

\*Maaaring ipadala ang inyong entries sa P.O. Box 7478 o sa Columbo Centre, 300 San. Gil Puyat Ave., Pasay City

## Albay to enforce law halting use of plastic

By Mar E. Arguelles  
Bureau Staff/Inquirer

**LEGASPI, CITY**—Starting this June, commercial establishments across Albay would be prohibited from using plastic bags, stretchers and other materials for packaging because of an ordinance banning the use of these materials was passed in December by Legaspi's Sangguniang Bayan (city council).

Signed by Mayor Gen. Jose Hernandez on Feb. 22, 2011, Ordinance No. 3001-11 would be strictly enforced and covered commercial, government, schools, markets, industries and other areas across the province, a local official said yesterday.

Arnold Infante, provincial council member and chair of the 12-member committee on environment, said the law had lifted an exemption on the ban it gave to commercial establishments in the 11 towns and three cities of the province, giving the way for enforcement of the ordinance.

He said the ordinance directs owners of big and small retail stores, including supermarkets, to use paper, cloth, jute, banana and synthetic materials in packaging bags for goods sold in their customers. This

new law bans anything from PLORIN to PLORIN and prohibits these items from private.

Infante said the provincial board is appealing to the public to use bags made of recyclable materials like paper, plastic or jute in the province.

"The law and other environmental agencies would start on July 26 with issuance of commercial establishments to disseminate letters of the ordinance."

Environmentalists said the use of plastic, which usually end up as litter and find their way into waterways, streets, roads, public beaches and events, causes pollution and results in environmental degradation.

"They said once banned, plastic bags contribute the air with toxic fumes and it would take at least 400 years for the material to decompose in a non-biodegradable. Plastic bags also kill animals that ingest them."

Other news here this journal have been the use of plastic although in many cases these have been locally sourced.

Scientists have developed an alternative to plastic made of biodegradable materials. But these have not been commercially available in many parts of the country.

**SPILL CONCRETE**

Workers pass under a pedestrian bridge (foreground), Nagua Oriental, after a concrete bridge designed for cars and trucks collapsed at the bridge of the E-1 Freeway in the city of Havana on Monday. Residents of quake-hit areas have been complaining of delays in repair of concrete bridges destroyed or damaged by the quake and their replacement by similar modular road bridges that are easier to manufacture.

AP/WIDEWORLD

## Luisita farmers resist move to fence lands

**CIEN DE SAN FERNANDO, CUE**—Farm workers claiming ownership of a 500-hectare land inside Hacienda Luisita in Tarlac City, filed a petition with the National Labor Commission in Baguio, Manila, to stop the move.

Julio Nolasco, chair of Agrarian Union (Hagapang) sa Agriana, Luisita (Hagapang), said the company formed by the Cagayan Valley and the National Labor Commission (NLC) to manage the land distribution program, the form of agrarian reform in the country's largest sugarcane area.

"Why did they have to do this? We were already taking care of the situation and that they used to fence the area," Nolasco said on Monday. He said he was told that the company was to be formed by the Cagayan Valley and the National Labor Commission (NLC) to manage the land distribution program, the form of agrarian reform in the country's largest sugarcane area.

Nolasco said land workers brought these lands to the state in the 1970s.

The Hacienda Luisita (HLS), the company formed by the Cagayan Valley and the National Labor Commission (NLC) to manage the land distribution program, the form of agrarian reform in the country's largest sugarcane area.

Infante said the provincial board is appealing to the public to use bags made of recyclable materials like paper, plastic or jute in the province.

"The law and other environmental agencies would start on July 26 with issuance of commercial establishments to disseminate letters of the ordinance."

## Dictionary of their language a fitting gift for Ibalois

**BAHAG CITY**—Residents of the city's Ibaloi community will receive their first gift from the Ibaloi Day today (Feb. 22), an undated, scholarly dictionary of their language which many fear is on the verge of extinction.

### HOMETOWN Snapshot

The Ibaloi dictionary and grammar is a 500-page book published by the Cordillera Studies Center (CSC) of the University of the Philippines Baguio and the Cordillera Regional Office in Baguio. It is a joint project of the Cordillera Studies Center, Cordillera Regional Office, and the Cordillera Regional Office in Baguio.

## Man, 70, dead after setting fire to wasp nest in house

By Bureau Staff/Inquirer  
Bureau Staff/Inquirer

**CIEN DE SAN FERNANDO, CUE**—A 70-year-old man in a mountain village here died on Feb. 21 after he set fire to a wasp nest in his house, authorities said.

Wilfredo Lopez, who suffered severe burns, was trying to drive away wasps that were building a nest in his house in Baguio, Cordillera Regional Office, and the Cordillera Regional Office in Baguio.

According to police, Lopez was a 70-year-old man who was trying to drive away wasps that were building a nest in his house in Baguio, Cordillera Regional Office, and the Cordillera Regional Office in Baguio.

The wasps had been building a nest in a bamboo wall of the house. The fire started when Lopez was trying to drive away the wasps.

Lopez said he was trying to drive away the wasps when he set fire to the nest. He was badly injured and died on Feb. 21.

# Eyes on Gatdula after failed ambush

## It looks 'staged,' says lawyer

By James E. Garfield and Nancy E. Corrao

FOR NATIONAL Bureau of Investigation (NBI) Deputy Director Reynaldo Ramonilla, only one case came to mind when asked what could be the most likely motive behind the attempt on his life Tuesday night.

The answer, however, said the attorney-at-law, his brother Tito, and their driver injured in their vehicle—may be linked to the Justice Office kidnapping case which recently led to the dismissal of former NBI Director Alejandro Gato.

Ramonilla's suspicion was fueled by Attorney Secretary Lito de Lima, and several other individuals from Gato's camp, a lawyer for the NBI chief demanded an apology from De Lima and noted that the ambush appeared to be "staged."

Ramonilla was one of the NBI members present interviewed by a Justice Department team during past reporting the Gato case in December 2001. He testified as the first law enforcement to arrive at the scene of the ambush on the Justice Office lawyer.

# PPP schools project attracts 15 firms

## First phase to see construction of 9,332 classrooms

**By Nita S. Dizon**

**THE GOVERNMENT'S Public-Private Partnership (PPP) for School Infrastructure Project** has attracted an initial pool of 15 companies, according to an official of the Department of Education. The three-phase project is estimated to cost P19.5 billion initially and the government intends to pay for the infrastructure construction over 30 years using staggered appropriations from the national government.

Education Undersecretary Francisco M. Sison said at a conference in Manila City yesterday that as of this week, 15 companies have purchased bid documents for the PPP project. The 15 are approximately a mix of local and foreign companies, some of them based or affiliated with local companies. It remains to be seen whether they would partner with other companies later on, said Sison.

**Local stocks resume climb**

The PSE-DOJ rate continued its upward trajectory as trading resumed on Monday, with the PSE Composite Index rising 0.15 points to 33.35. The PSE-DOJ rate, which is a key indicator for the local stock market, also showed a slight increase to 42.620. The PSE-DOJ rate is a measure of the PSE's performance relative to the US Dollar.

## OFW remittances seen to grow 6% this year

**By Michelle K. Romo**

**METROBANK** expects remittances to the Philippines to grow by 6 percent this year despite the prolonged crisis in the euro zone, saying continued demand for Filipino workers in other labor markets will boost the amount of money they remit home.

It said the Philippine economy would likely grow 6 percent this year following its 5.7 percent expansion last year. "The outlook for remittances" suggests that the OFW sector will be higher at 4.5 percent this year, outpacing the 4.2 percent expansion in 2011.

## NGCP eyes P36-B power project

By Amy R. Reyes

THE NATIONAL Grid Corp. of the Philippines, operator of the national transmission network, is trying to undertake the P36-billion Cebu-Nagpartian Energy Interconnection Project to allow the additional 4,200 megawatts in new capacity that will be installed during 2015.

In a briefing yesterday, Governor R.A. Goleg, NGCP deputy chairman, explained that the proposed project involves the construction of a 2,300-kilowatt backbone and the installation of 30

kilowatts of substation and 110 kilowatts of overhead cables.

The information on accommodation of additional 400 MW. Goleg said, however, that the huge project was being weighed against a cheaper alternative—the P2.8-billion Region Three Interconnection (R3-ITC) Phase 2, which can accommodate 90 MW in new capacity.

The R3-ITC Phase 2 will allow power interchange between Negros and Panay, which means that the contracted supply from power plants inside Panay can be reli-

ably transported to customers in Panay.

Currently, contracted supply from power plants in Panay can only be transported to customers outside Panay.

Also, the project is expected to ensure reliable power supply and reduce congestion, particularly in Region One, where there are low power plants.

According to Goleg, the Cebu-Nagpartian Interconnection project would also be a great option to it can accommodate a big gas capacity if indeed all the pro-

posed power plants that would generate 600 MW will go on line by 2015.

However, the project cost is a huge consideration since any investment that NGCP will make will have to be recovered from the customers.

According to Goleg, the Cebu-Nagpartian Interconnection project may be deflated if the power plants will be constructed in ideal locations, which are close to the load centers, or areas of high electricity use, to avoid longer and more expensive transmission projects.

## PH to contribute \$500M to IMF facility

By Michelle Y. Reyes

THE PHILIPPINES has pledged to contribute \$500 million to the International Monetary Fund's latest lending facility aimed at reducing crises such as unemployment in the Southeast.

Then Governor of the Bangko Sentral ng Pilipinas, and then the entry of the Philippines into the expanded New Arrangements to Borrow (NAB) program of the IMF as a condition

country is currently being processed by the IMF.

Should the entry be finalized, the Philippines will make available \$500 million, which the IMF can tap in its efforts to provide financial assistance to crisis-stricken countries, such as those in the Americas.

The IMF pays top leading facilities such as the NAB to ensure there are sufficient resources that can be tapped in case of significant events or

global monetary stability.

The NAB has \$70 billion worth of trust pledges from various member countries, including the \$500 million from the Philippines.

The pledge from the Philippines to the NAB program of the IMF is on top of the country's contribution of \$211.5 million to the Financial Transactions Plan (FTF), another lending facility of the IMF.

Of the Philippines' commitment to the FTF, only half was actually used by the IMF as part of the overall financial assistance recently extended to the Philippines.

The Philippines used to be a net borrower from the IMF until 2006, when the country prepaid all its outstanding obligations to the institution.

By 2010, the Philippines became a net creditor to the IMF when it participated in the FTF.

## PH international air travel sector grew in '11

By Paolo S. Montesido

THE COUNTRY'S international air travel sector grew by nearly 9.8 percent over the previous 12-month period.

Consistent with the domestic sector, the country's total air travel industry grew by 13.57 percent in 2011.

Data from the Civil Aeronautics Board (CAB) released this week showed the number of

passengers going in and out of the Philippines growing to 15.67 million passengers, up by 9.8 percent over the previous 12-month period.

Consistent with the domestic sector, the country's total air travel industry grew by 13.57 percent in 2011.

This came despite challenges experienced in the rest of the world, where passenger traffic

grew by a modest 4 percent.

Travel, 2011 was a year of recovery. Passenger growth, primarily in the first half of the year, was offset by a declining cargo market.

Optimism in China translated with growth in Europe. Specifically, the world's most supported business travel demand.

International Air Travel Association (IATA) CEO Tony Tyler said in a recent

statement.

"Supporting business confidence is a good sign, but 2011 is still going to be a tough year," he said.

For the Philippines market, the expansion to international traffic in 2011 was slower than the 2010 year-on-year growth rate of 12.43 percent, dragged down partly by the dismal performance of Raytheon Philippines Air Lines (PAL).

**Power Situation Outlook**  
for Thursday, 23 February 2012

	Load	Supply	Reserve
Maximum Demand (MW)	6,766	1,728	1,181
Minimum Demand (MW)	6,681	1,228	1,289
Net Reserve (MW)	2,165	488	-44

## Cebu Pacific pursues expansion to Europe, Middle East

SUBJECT carrier Cebu Pacific has signed a lease for four Airbus A330-300 aircraft, set to arrive starting late next year, as it prepares to expand its network in Europe, the United States and the Middle East.

In a statement on Wednesday, Cebu Pacific said it had signed operating lease agreements for the new Airbus A330-300 aircraft with CIT

Aeromarine, a unit of the New York Stock Exchange-listed CIT Group Inc.

The new planes will be delivered from 2013 to 2014, and will be operated by Robinson's fleet 7720 aircraft. The new planes will allow Cebu Pacific to boost flights outside the current range of its fleet of Airbus A320 jets.

"These Airbus A330-300 aircraft

will allow us to offer our customers

low fares to its own wider market. With the introduction of wide-body aircraft into our fleet, we could offer our customers more services into Australia, India, the Middle East and parts of Europe and the United States," said Alex Brown, general manager of Cebu Pacific's long-haul group.

The company's optimism comes

despite the dark clouds that have

been cast over the low-cost, long-haul air travel market.

Earlier this year, Malaysia's Air Asia X, one of the pioneers of low-cost, long-haul carriers, announced the suspension of flights to Paris, Vienna and London in the UK, among other key routes, due to escalating costs. Paolo S. Montesido
